Dear Mr. Timothy Sabo,

Enclosed are documents pertaining to the UCSA project at Hillcrest Bay, Parker Arizona, as discussed..

- 1) The original amendment.
- 2) Exception letter to the ROO with attachments.
- 3) Copy Article 6.1 Conversion, portions highlighted.
- 4) Amendment #1 Financial assistance.
- 5) Amendment #2 (The yellow columns are the additional private costs, that are added to the fixed combined utility cost sheet. This document nows show a total cost for each parcel on one line, as well as the total cost of the project). Thus the costs are amended. (to be revised)
- 6) Amendment #3 so far just this letter.
- 7) Amendment #4 Petition format
- 8) Amendment #5 It is the Assessors Office that does this. Since they have said that they could not be sure if this would be done within a 30 day period we are turning in the application on February 3rd, 2009 and we will have it updated as necessary.
- 9) Pictures, 5) extra large, 15) 8x10 pictures, showing a spider web of lines and poles. If the UCSA fails then APS has plans for an additional 42 poles as part of an OVH redesign, all of the existing poles will remain with telephone lines.

Tim thanks for your involvement in helping to get this approved by the ACC.

I will be available for your phone call this Friday afternoon as planned. If you are unable to review these documents by then and instead wish to reset the planned call to another day, have Debbie e-mail me and we can set up another time early next week.

Best regards,

John Sears, Chairman UCSA, Hillcrest Bay
